Instructions: Use this form for all perch fees, if you make multiple shipments on different days, print a separate form and start at the entry after the last one you paid. For example, if you ship five birds and then later ship another five birds, then fill out this form for entry fees 1-5 and pay \$425. Then, on the second shipment fill out the form for entry fees 6-10, leaving 1-5 blank. Put the amount you paid on your first shipment in the "Amount Already Paid" field subtracting that from the amount due for a 10 bird entry ($\$700 - \$425 = \$375$)
